

Bastille Homes

Of our own volition we offer this testimony in favour of Bastille Homes.

We had a wall removed and replaced with feature doors that led out on to entertainment area. We also had a powder room completely made over and an outdoor shower installed. In each case the result was outstanding.

From the outset we were taken by the efficiency and courtesy of the company and after an initial interview in which options were discussed and advice freely given we were forwarded a competitive and explicit quote that we had no hesitation in accepting. It included exact start and finish dates.

The company started on time having had materials redelivered. They gave clear indications of the progress dates and where practicable adhered to them. At all times during the build, Bastille were neat, tidy and considerate and at the end of each day they cleaned up and left the place orderly and habitable.

At one point and through a measurement misunderstanding for which we must accept most of the responsibility, Bastille made good without hesitation, even though it meant a full day rectifying the situation. We offered to let it go but David and Chris insisted on ensuring that the door placement was perfectly symmetrical. They still completed the job ahead of time.

My wife and I would not hesitate to recommend Bastille to anybody wanting a large or small building job done and as a gesture of gratitude for their kindness to us we would make our home available for prospective renovators such that they could see the quality of their work. Alternatively we would be happy to take a call to expand on this testimonial.
